## NROCRC Strategic Plan 2015 to 2018

•We have identified our youth, seniors, and rural communities as those which we will focus on over the next 3 years. We recognize that we have to be flexible adaptable when the needs of our communities change. Our service delivery is community driven, using a community development model, so programs and services will be designed in response to community needs.

Enhance Service
Delivery to
Youth, Seniors,
and the Rural
Communities

 We strive to develop and enhance strategic partnerships to meet the changing needs of our growing and diverse communities. Our partnerships will be mutually beneficial and driven by community needs.

Maximize Strategic Partnership Opportunities

 Our own infrastructure must be strong in order for us to accomplish our goals. We endeavour to improve our internal processes while continuing to develop and grow in our complex environment. Our solid organizational foundation will enable us to help others. Maintain High and Consistent Standards of Performance Maximize
Fundraising and
Funding
Opportunities

Given that we are operating in an ever changing and complex funding environment, we recognize that we have the responsibility to explore and develop alternate sources of funding. Diversification of our funding sources will enable NROCRC to remain financially stable, while continuing to grow and meet the complex needs of our communities

*Mission Statement* – To work in partnership with community members and stakeholders to improve the social determinants of health and meet the needs of the diverse communities within Nepean, Rideau and Osgoode
